WHAT TO EXPECT

Discord serves as the primary gathering place for most communities and because of this, it requires a more personal touch.

We spark organic conversation and discuss the project in a more subtle tone. An example of that dialogue is something similar:

“Hey what other projects do you guys have your eyes on?”

“Well, I’m excited about...”

Our KPI’s are impression-based. Our results can vary depending on several factors such as:

- Where you're at in your project roadmap
- What's the incentive to become a part of the community?
- How active and engaged your community is (new users will leave a dead chat almost immediately).
